

THE 'ENTERPRISE' RATED 'A' FOR ROBBEN

WHAT HAPPENS

Adding infrastructure (half-configured)

▶ Included metrics collection (never connected)

Implement health checks (that don't check anything)

Add graceful shutdown (partial works)

▶ Circuit breakers, retry logic, etc. (incomplete)

WHAT HAPPENS

- ▶ Adds logging infrastructure (**half-configured**)
- ▶ Includes metrics collection (**never connected**)
- ▶ Implements health checks (**that don't check anything**)
- ▶ Adds graceful shutdown (**partially works**)
- ▶ Circuit breakers, retry logic, etc. (**incomplete**)
