

WHEREAS THE

THE UNTESTED CASTROPHES

```
27  ### Testing Requirements
28  - Ensure all new features have automated tests
29  - Use `unittest.mock` for mocking API responses
30  - unit tests should **NEVER** rely on external calls or `.env` configuration
31  - Validate data quality and consistency in tests
32  - Test files should be in `tests/[technology]`
33  - Test files for extract or load functionality should be in `tests/[technology]/extract`
    or `tests/[technology]/load`
34
```
